**-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --**

**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**Status**

- 1) ☒ Responsive to communication(s) filed on 20 March 2006.
- 2a) ☒ This action is **FINAL**.                      2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 103***

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 17,18 are rejected under 35 U.S.C. 103(a) as being unpatentable over Thomas et al. # 6,599,057 B2.

Thomas et al. discloses a self-propelled paver (unnumbered See Col. 10, Ins. 4-7) having:

A metering device (col. 9, Ins. 39-50), for metering a mixture of at least water and wetting agent to a mixer for mixing with pre-coated asphaltic aggregate.

A hopper for receiving said pre-coated asphaltic aggregate (RAP).

A spreading device, such as a screed, to lay the blacktop paving material on a surface, immediately after mixing. See Col. 9, ln. 23-col. 10, ln. 58

2. Claims 17, 18 are rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Jakob # 4,946,307.

Jakob discloses a paving machine comprising:

A receiver (46) for receiving bitumen-coated aggregate.

A mixer (58) to combine a mixture of paving materials, such as a liquid additive to said bitumen coated aggregate.

A metering device (60) to meter the liquid additive to the mixer (58).

A spreading device (59) to lay the blacktop paving material on a surface immediately after the mixture is combined in the mixer.

See Col. 3, ln. 64-Col. 4, ln. 53.

Although Jakob does not explicitly recite what type of liquid additives are contemplated; it is obvious, if not inherent from the disclosure of Jakob, that all commonly known liquid paving additives are contemplated, and are dependent not upon the structure of the apparatus but rather the contents of the supply truck (64).

Therefore, it would have been obvious to one of ordinary skill at the time the invention was made to provide the apparatus of Jakob, with a desired asphaltic-concrete, liquid additive, as reasonably suggested by Jakob in order to recycle asphalt roadways, thereby reducing demand on natural resources.

***Allowable Subject Matter***

3. Claims 10-16,19 are allowed.

***Response to Amendment***

4. Applicant's amendments to claim 1 clearly overcomes the teaching of the prior art of record, as the mixture formed by the method is not anticipated nor taught by the prior art. Although similar amendments have been made to claim 17, the content of the mixture claimed is also capable of being used by the apparatus disclosed by the prior art, by virtue of the structural features disclosed by the prior art, that are receptive to any type of liquid paving additive. And that the mixture claimed, does not require any special structural features for its use.

***Response to Arguments***

5. Applicant's arguments with respect to claims 17, 18 have been considered but are moot in view of the new ground(s) of rejection.

***Conclusion***

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the

shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Raymond W. Addie whose telephone number is 571 272-6986. The examiner can normally be reached on 6AM-2:00PM.
